

Parker Butte Native Plant Field Trip

Come join Emily Poor, our leader on this half-day trip to private property on Parker Butte east of Palouse Washington! There are plenty of trails over 100 acres of mixed ponderosa pine forest and Palouse Prairie remnant. The prairie is home to some rare species such as Palouse milkvetch, Palouse thistle, and mountain lady slippers.

Saturday, May 19

**Meet at 8:30 a.m. at
Rosauer's parking lot to
arrange carpooling**

Visit www.whitepineinps.org for field trip information
